Part 2: Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions. (1,25 point)

Tourism and Heritage Protection Travelling is a great thing to do. It helps us learn about different people and different places. Some people travel because they want to see nature. Others travel because they want to make friends and try great food. Of course, a lot of tourists are interested in traditional culture.

Tourism can be very good for traditional cultures. This is because when people travel to another country, they often want to learn more about that country's traditions, such as music, food, and history. Therefore, the local people in that country will keep their traditional culture alive. **They** will wear traditional clothing, and sell traditional food. They will also have shows for tourists. These shows can be dances, concerts, plays, or something else.

Tourism also helps people respect each other. If you understand another culture well, you will probably respect that culture much more. You will probably want to protect that culture as well. However, tourism is not always good for traditional culture. Many people say that tourism creates "**fake** traditional culture". This means that the local people wear traditional costumes, and do traditional dances only for tourists, but that is not their real lifestyle. Their real lifestyles are similar to the tourists' lifestyle. They are just pretending because they want to make money.

Question 26. What is the main idea of the passage?

- A. Tourism is always good for traditional culture.
- B. Tourism is always bad for traditional culture.
- C. Tourism can be good and bad for traditional culture.
- D. Tourists don't care about traditional culture.

Question 27. Why do local people want tourism?

- A. Tourists bring money.
- B. Tourists help teach local people.
- C. Tourists tell local people about business.
- D. Tourists destroy the traditional culture.

Question 28. What is one problem that tourists create?

- A. They hurt local people.
- B. They steal money from local people.
- C. They hurt local businesses.

D. They interfere with local lifestyles.

Question 29. The word “**they**” in paragraph 2 refers to _____

A. tourists B. local people C. tourist guides D. dancers

The three common types of pollution are air, water and land. In the old times, pollution came from nature, such as floods, forest fires and volcanoes. For the past 200 years, humans have been the major cause of pollution. We have polluted the air with our cars, waste from our homes, and toxic substances from factories. We have harmed the land by cutting down trees in the forest to build roads and new houses without careful planning and thinking. We have polluted the soil with chemicals and rubbish. We have **polluted** the water by dumping rubbish and chemicals in the rivers and oceans. Besides, we have caused oil spills which damaged the beaches and harmed marine animals and birds that lives nearby.

The only way to save our environment is that we must stop or limit pollution. Conservation is one of the best ways to protect our environment. Conservation includes the suitable use of natural resources and the protection of our environment. To illustrate, we use water and control water pollution by not producing too much waste. Besides, recycling and reusing things many times or in a new way are strongly encouraged. Recycling can help us conserve our natural resources and avoid throwing away rubbish. Moreover, it is very important that we have proper disposal of sewage and rubbish so that they cannot pollute the environment.

Part 2: Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions that bellow.

The three common types of pollution are air, water and land. In the old times, pollution came from nature, such as floods, forest fires and volcanoes. For the past 200 years, humans have been the major cause of pollution. We have polluted the air with our cars, waste from our homes, and toxic substances from factories. We have harmed the land by cutting down trees in the forest to build roads and new houses without careful planning and thinking. We have polluted the soil with chemicals and rubbish. We have **polluted** the water by dumping rubbish and chemicals in the rivers and oceans. Besides, we have caused oil spills which damaged the beaches and harmed marine animals and birds that lives nearby.

The only way to save our environment is that we must stop or limit pollution. Conservation is one of the best ways to protect our environment. Conservation includes the suitable use of natural resources and the protection of our environment. To illustrate, we use water and control water pollution by not producing too much waste. Besides, recycling and reusing things many times or in a new way are strongly encouraged. Recycling can help us conserve our natural resources and avoid throwing away rubbish. Moreover, it is very important that we have proper disposal of sewage and rubbish so that they cannot pollute the environment.

Question 26: What is the two main causes of pollution?

- A. Chemical and gabage
- B. Human activities and natural causes.
- C. Volcanoes and oil spill
- D. Cutting down tresss and dumping rubbish

Question 27: What is NOT mentioned as the reasons for environmental pollution?

- A. vocanic eruption
- B. Human causes oil spills
- C. Humans set fire to forests.
- D. The disposal of harmful wastes from factories.

Question 28: What can people do for environmental conservation?

- A. avoiding using natural resources.
- B. Producing more waste
- C. avoiding throwing away rubbish
- D. Using natural resources in the right way and avoid producing too much waste.

Question 29: The word '**polluted**' in paragraph 1 is closest in meaning to _____.

Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions.

Florists, personal trainers, professors, and nutritionists all have healthy jobs according to research. There are many reasons for this. A florist, for example, sells flowers and plants to customers. This is very relaxing work. A personal trainer, on the other hand, is usually very fit. He or she **trains** other people to lose weight and to keep fit.

However, research also shows that some jobs are 'unhealthy'. They cause a lot of stress and worry. For example, a taxi driver drives all day. He often faces traffic jams and difficult passengers too. A firefighter puts out dangerous fires and sometimes saves people from burning buildings.

Most people are looking for the perfect job. **They** want a job that is interesting, with a good salary and not much stress. However, it is difficult to get everything. Healthy, relaxing jobs are usually not very well paid. On the other hand, people with stressful jobs often get good salaries. For example, the head of a big company gets a lot of money, but he or she does not always have good health, or the time to enjoy life.
